A Class Of Its Own

The question of how to set the standard for sun showers is answered impressively by the Luxura V₅. It is a matter of product quality. Naturally! But it is also a matter of price. With Luxura V₅, Hapro has managed to determine the ideal price-performance ratio for a sun shower. A top piece of equipment - in a class of its own.

Complete And Competitive

The standard equipment of Luxura V₅ has everything you can expect from an entry-level model. And more. No studio should have to be without a sun shower anymore. For the interior lighting an energy-saving lamp is used. This is because you will not want to send your energy costs rocketing. You see: Luxura V₅ is a good and, at the same time, an inexpensive opportunity for you. Come on board.

An option worth listening to: integrated speakers.

Simply practical: the strong and sturdy handle.

High-grade material - first-class processing and easy to clean - and attractive to look at.

WATER COOLER

It's Looking Good For You

The excellent manufacturing quality of this sunshower satisfies all possible wishes. And the stylish design adds to the luxury feel. The dual-segment door allows the user to enter easily and takes up a minimum of space. The same applies to perfectly formed changing room*, which integrates seamlessly into the general appearance of the Luxura V_s. Things are really looking good for you!

Everything In View And Easily Handled

The many years of experience of Hapro are demonstrated by attention to the smallest detail. Take for example, the strong and sturdy handle. Or the clear and user-friendly LCD display in a futuristic look. Here, the users will see at a glance „what they have focused on“.

Take A Look

In the Luxura V₅ 42 XL or XLc tubes provide a truly impressive tanning result. All tubes are 2 meter long. Here you have the choice between standard XL tubes (XL-Light) or XLc tubes which give some extra attention to the face - both tube types are available in the versions „Intensive“ and „High Intensive“.

Both the tanning result of the sun shower and the device itself are worth seeing.

Perfectly formed: the optional changing room matches the perfect shape of the Luxura V₆ to make up a total picture of perfection.

S

With this feature, a pleasant scent is sprayed into the interior via the air vents. Available with the following scents: Citrus, Exotic or Ocean.

And It Smells Great Too

The Xsens* option means that an aromatic scent enters the tanning space via the air vents, during the tanning process. And the individually adjustable air jets themselves are worthy of a mention - they are simply fantastic.

The main cooling effect comes from overhead, as does the sound - loudspeakers* are available which can be fitted into the lid.

The devices shown sometimes include special equipment.

Service From Inside

Most service actions are carried out from the interior of the sun shower. To get to the electrical components you simply remove the centre console. For maintenance purposes the acrylic surface is removed with a few simple operations. Maintenance of Luxura V₅ is simple. It's the way it should be.
