Expanding life.

Probox.

Family size.

Safe and stress-free journeys.

It saves an awful lot of hassle when you can take exactly what you want with you, without you or the kids having to be packed like sardines into a fully loaded car during the journey. With the Hapro Probox you don't need to make any more concessions on comfort or your amount of luggage and that means a more enjoyable journey (and stay) for the whole family. Choose the roof box size that suits your space requirements and enjoy the advantage of all the extra luggage you can safely take with you.

Eternally elegant and user friendly.

The Hapro Probox doesn't only have a stylish and timeless design but above all, it's solid. Its UV resistant and scratch-proof ABS/ASA plastic materials ensure that your roof box will stay smart and qualitatively superior for many years to come. The metal strips in the bottom and the strong locking system guarantee optimum safety. The dynamic spring strut system allows for easy opening and closing of the lid so that you can easily and comfortably organize - and of course later - unpack your extra luggage.

Hapro Probox 430
L x B x H (cm) 150 x 99 x 40

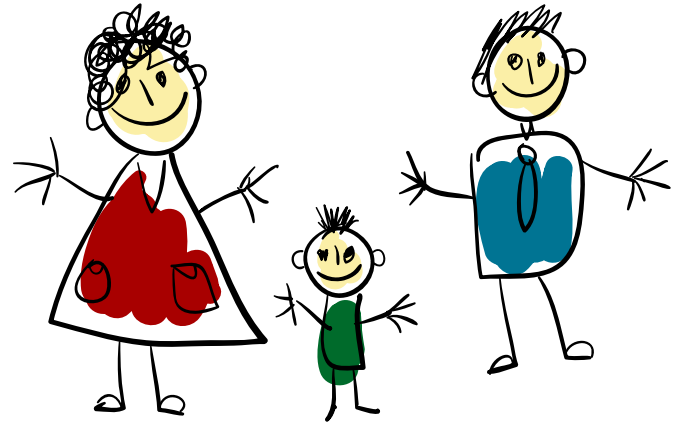

Hapro Probox 460
L x B x H (cm) 185 x 80 x 42

Hapro Probox 560
L x B x H (cm) 208 x 88 x 42

Easy-Fit.

Child's play.

Easy-Fit, assembly is child's play.

Thanks to the patented Easy-Fit system, only a few steps are required to fasten the Probox rock-solid onto the roof racks. Insert, turn, secure and cover, that is all you need to do for a safe trip.

cover

Everything in its place.

After you have mounted the red safety catch, the roof box will securely fixed to the roof bars. Roof box and car are now a safely secured unit when you are driving. Place the protective cover to ensure that your luggage is optimally protected.

Expanding life.

Safety.

Safety first.

TÜV approved.

Hapro plays it safe when it comes to safety. The Hapro Probox has been subjected to tests under the most severe circumstances, worse than any circumstances you will ever encounter. We guarantee a high safety level, as the Hapro Probox has endured TÜV-tests, City Crash Test, stability test, vibration- and water- and wind tunnel tests.

Your luggage is safe.

Additional storage space is great to have but safety comes first and foremost. Hapro roof boxes, whichever you choose, are a safe buy, well-designed and constructed from solid and attractive UV- and impact-resistant ABS/ASA plastic material.
